**P5JB1F-0505**

## **24 HOUR INCIDENT ACTION PLAN**

**DAY / NIGHT SHIFT**

**AUGUST 27, 2014 0600 – 1800**

**AUGUST 27-28, 2014 1800-0600**

<b>Incident Objectives</b>	1. Incident Name HAPPY CAMP COMPLEX	2. Date Prepared 08/26/14	3. Time Prepared 1215
4. Operational Period 8/27/2014 – 8/28/2014 Wednesday – Thursday 0600 - 0600			
5. General Control Objectives for the incident (include alternatives)  <b>Firefighter and public safety is our core value. All identified hazards will be mitigated or avoided.</b>  <b>MANAGEMENT OBJECTIVES:</b>  1. Manage costs commensurate with values at risk. 2. Minimize damage to natural and cultural resources caused by fire suppression actions.  <b>CONTROL OBJECTIVES:</b>  1. Provide Structure Defense within the Division 2 boundary of the Happy Camp Oak Knoll Ranger District and along Scott River. 2. Manage and coordinate all new fires within the Division 2 boundary of the Happy Camp Oak Knoll Ranger District. 3. Manage all fires under a full suppression strategy.			
6. Weather Forecast for Period  SEE ATTACHED FORECAST			
7. General Safety Message  SEE ATTACHED SAFETY MESSAGE

## Happy Camp Complex Weather Forecast

FORECAST NO: 14 D/N  
PREDICTION FOR: Wednesday Day/Night Shift  
SHIFT DATE: August 27, 2014  
FORECAST ISSUED: 1900 August 26, 2014

NAME OF FIRE: Happy Camp Complex  
UNIT: KNF / SoCal 3  
Incident Meteorologist: Jeff Tonkin

**WEATHER DISCUSSION:** A ridge of high pressure will gradually shift eastward over the fire area today and Thursday. This feature will weaken on Friday as a trough of low pressure drops down from the north. The warming drying trend will persist through Thursday along with stronger inversions and abundant smoke. Westerly winds increase on Friday thus some relief from the smoke is expected...accompanied by a decrease in temperature and an increase in relative humidity through Sunday.

### WEATHER FORECAST FOR TODAY (WEDNESDAY DAY SHIFT):

**WEATHER:** Clear but with periods of heavy Smoke....some mixing after 1700.

**MAX TEMPERATURES:** **With Smoke:** Valleys (1,200 ft) 86 – 93 F, Ridges (4,000 ft) 81 – 86 F

**No Smoke:** Valleys (1,200 ft) 95 – 100 F, Ridges (4,000 ft) 86 – 90 F

**MIN HUMIDITY:** **With Smoke:** Valleys (1,200 ft) 17 – 21%, Ridges (4,000 ft) 18 – 23%

**No Smoke:** Valleys (1,200 ft) 11 – 16%, Ridges (4,000 ft) 13 – 18%

**WINDS (EYE LEVEL):**

Drainages – Up slope / up valley 1 – 3 mph.

Ridges – East and northeast 2 – 3 mph until 1100 PDT...then becoming west 3 to 5 mph through 2200 PDT.

**LAL:** 1 **CWR:** 0% **HAINES:** 3-4

**STABILITY / INVERSION:** Multiple Inversions lifting between 1600 and 1800 PDT.

**SMOKE TRANSPORT:** Northwest 5-10 mph.

### WEATHER FORECAST FOR TONIGHT (WEDNESDAY NIGHT SHIFT):

**WEATHER:** Mostly clear but with abundant smoke.

**MIN TEMPERATURES:** 57 – 63 F

**MAX HUMIDITY:** Valleys (1,200 ft) 60 – 70%F, Ridges (4,000 ft) 45 – 50%

**WINDS (EYE LEVEL):** Valleys – NE or down slope / down valley 0 – 3 mph

Ridges – Variable 2 – 5 mph.

**LAL:** 1 **CWR:** 0% **HAINES:** 3-4

**STABILITY / INVERSION:** Multiple Inversions lifting between 1500 and 1700 PDT.

**SMOKE TRANSPORT:** West 5-10 mph.

**OUTLOOK FOR THURSDAY (4500 FT):** Partly Cloudy with abundant smoke. Max Temps: 86 to 92. Min RH: 18 - 23%. Ridge Wind: West and Southwest 4 – 6 mph gusts 8 – 12 mph. LAL 1. CWR 0%. Haines 3-4.

### THREE DAY EXTENDED DAYTIME (FRIDAY – SUNDAY 4500 FT)

	<u>Max T</u>	<u>Min RH</u>	<u>Max RH</u>	<u>Ridge Winds</u>	<u>LAL</u>	<u>WX</u>
FRI	80 – 94	27%	55%	W/SW 4 - 6 G 12 mph	1	SMK
SAT	73 – 78	32%	75%	W 6 - 8 G 15 mph	1	SMK
SUN	73 – 78	33%	80%	NW 6 – 8 G 15 mph	1	SMK

#### **Observations from Tuesday Afternoon: Very Smoky until 1800.**

	<u>Max Temp</u>	<u>Min RH</u>	<u>Wind Dir</u>	<u>Wind Spd</u>	<u>WX</u>
Happy Camp (1,161 ft)	96	16%	W	Var 2-4	Heavy Smoke
Dutch – Indy (2,281 ft)	91	22%	E	2 mph gust 4	Heavy Smoke
Grider Ridge (4,621 ft)	81	22%	W	3 mph gust 10	Heavy Smoke

## FIRE BEHAVIOR FORECAST

**FORECAST NUMBER: 023**

**TYPE OF FIRE: Wildfire**

**FIRE NAME: Happy Camp Complex**

**OPERATIONAL PERIOD:**

**8/27/14 0600 to 8/28/14 0600**

**DATE ISSUED: 8/26/14**

**TIME ISSUED: 2000 hrs**

**UNIT: Klamath National Forest**

**SIGNED: FBAN,** 

### INPUTS

**WEATHER SUMMARY:** See Weather Forecast for specific information

Sky: Mostly Smokey...Partial clearing late in the day ... Temps Max 88° Min 60°...RH Min 20% Max 55%

Daytime Winds...Valley: up slope/up valley 2-4 mph...Ridge: NE 3-5 mph

Nighttime Winds...Valley: down slope/valley 0-3mph...Ridge: NE 1-2 mph

LAL 1... Haines 2...Inversion lifting between 1600-1700 setting back in at midnight

**Fuels:** Fuels burning consist of Timber Understory and Timber Litter(FM 9,10).

Live Fuel Moisture is estimated at 90%. 1000 hr fuels are 8%.

### OUTPUTS

#### GENERAL FIRE BEHAVIOR:

The Fires main influence has been fuel and topography dominated. Critically dry dead and downed fuels are providing persistence in fire behavior. A fuels & fire behavior is in affect for the Region.

**Local threshold for large growth:** 20' winds over 4 mph, RH less than 40%, Temps over 75\*, 1000 hr FM less than 13% (refer to Pocket Card in IAP).

Spotting potential is high during the peak of the day(PIG >85%) and low for night operations(PIG <20%)

### SPECIFIC

#### All Divisions:

The potential for single/group tree torching and short range spotting will remain a threat due to ladder fuels. Roll-out of burning material remains a high concern and is a main factor in fire growth..

**Frying Pan Fire:** Stable conditions and smoke shielding will limit fire growth today. When the inversion breaks, expect unburned pockets to continue burning up to Grider Ridge. Slop-overs on Grider Ridge will continue to back & roll-out towards Grider Creek.

**Div. F:** Fire will continue to burn within China and Wolf Creeks and progress up towards Grider Ridge.

**Div. T:** Heavy fuels will allow for continued backing down to Elk Creek. Rolling materials and snags will pose a threat for the next several days.

**Div. O:** Fuels within the Doolittle drainage will continue to burnout and up to the established perimeter.

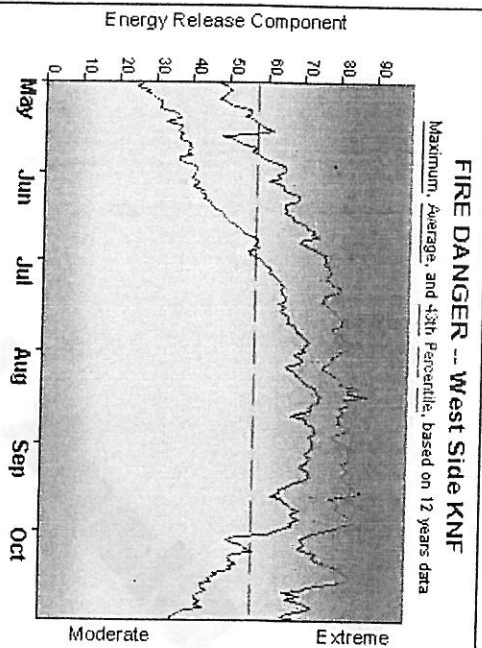

**Falkstein Fire:** No significant movement expected today. Fire will continue to back to the north and west. Fire progression will be mainly from roll-out and short range spotting. Fire is not expected to impact any of the indirect line construction during today's shift.

#### AIR OPERATIONS:

Light winds will allow for good flying conditions once the inversion breaks. Expect poor visibility for most of the day, especially in deep drainages.

### SAFETY

- Lack of visibility may compromise the validity of lookouts. Be vigilant in ensuring your lookout can see both you and the main fire.

#### Fire Danger Area:

- ◆ 200, 202, 204, 208
- ◆ CA280 & CA281
- ◆ See below
- \* Meets NWCG Wix station standards

#### Fire Danger Interpretation:

EXTREME -- Use extreme caution  
 CAUTION -- Watch for change  
 MODERATE -- Lower Potential, but always be aware

Maximum -- Highest Energy Release Component by day for 2000 - 2011

Average -- shows peak the season over 12 years (2204 observations)  
 43rd Percentile -- Only 43% of the 2204 days from 2000 - 2011 had an Energy Release Component below 57

#### Local Thresholds - Watch out:

Combinations of any of these factors can greatly increase fire behavior:  
 20' Wind Speed over 4 mph, RH less than 40%,  
 Temperature over 75, 1000-Hour Fuel Moisture less than 13

#### Remember what Fire Danger tells you:

- ✓ Energy Release Component gives seasonal trends calculated from 2 pm temperature, humidity, daily temperature & rh ranges, and precip duration.
- ✓ Wind is NOT part of ERC calculation.
- ✓ Watch local conditions and variations across the landscape -- Fuel, Weather, Topography.
- ✓ Listen to weather forecasts -- especially WOTND.

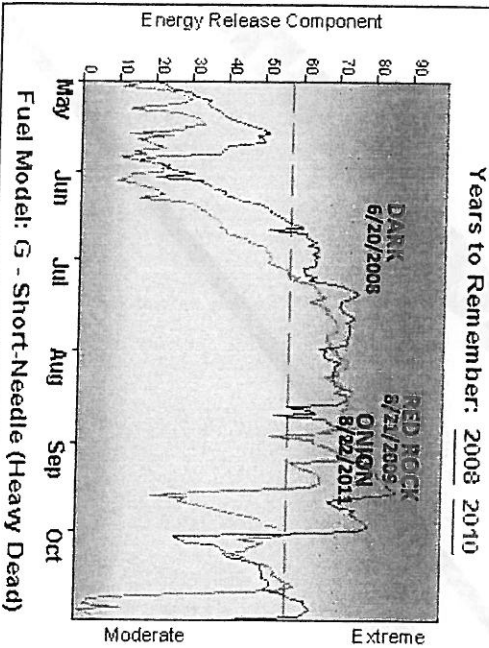

#### Past Experience:

Large fires (>50ac) occur more frequently when BI exceed 58. Fires 50 acres and larger can readily increase in complexity.  
 Multiple lightning ignitions can overwhelm suppression resources. 2008 was an active fire year. 2010 was quiet.

Sawyers Bar, Somes Bar, Slater Butte, Blue Ridge, Oak Knoll, Slater Butte, Collins Baldy, Quartz Hill, Callahan #2, and Dutch-Indy RAUOS data was used.

Responsible Agency: Klamath National Forest

# Safety Message

August 27, 2014

## Hazards we face daily:

- Situational Awareness & Hazard Assessment
- Snags / Rolling material / steep terrain / uneven footing
- Complacency
- Driving habits
- Tactical Firing Operations

## Some possible mitigations could include:

**Situational Awareness** (Typical considerations): Gather information; what is the objective; good communications; who's in charge; Previous or current fire behavior; Weather now and forecast; Local factors to the work area. =GO/NO DECISION

**Hazard Assessment** (Typical considerations): What are potential fire behavior hazards- Look up/down/ around indicators; identify any tactical hazards-watch outs; what other safety hazards exist in work area for tasks being completed? Consider severity vs. probability? What do I need to control the hazard? GO/NO DECISION

- Keep flexible; wildland fire incidents are very dynamic. As operations change to mop up, remain vigilant of surroundings. Constantly look around you.
- Scott's Valley Road to Happy Camp is seeing heavy traffic, use headlamps, be aware of blind turns, goes to 1 lane in a few spots and watch speed limit.
- Snags in the fire area are burning through and falling on their own, this tends to bring rocks and material with it. Stage your people, equipment and vehicles safely and post lookouts. Watch out for each other.
- De-hydration still is an issue, other incidents have sent fire fighters to the hospital for treatment, this is nothing to fool with!
- Tactical ignition-Understand your objective; ensure you will not have an adverse affect on other parts of the fire (or zone). Does this operation fit into the big picture? LCES must be in place prior to commencing. Keep Operations informed when commencing and of any immediate needs.

Incident Location: KLAMATH NATIONAL FOREST - HAPPY CAMP, CA  
 Cnty: SISKIYOU  
 Latitude Longitude

To expedite processing, please avoid waiting until the day of demob to process a claim.

### CACHE ITEM CLAIMS

Individuals responsible for or assigned government property are responsible to document loss or damage on the Property Loss or Damage Report, OF-289. The individual, supervisor and a witness must document facts and circumstances on the form in order to gain approval to repair or replace damaged property.

The Supply Unit Leader (SPUL) or Incident Agency Representative approves replacement requests for expendable cache items. If this equipment or supply is not available at the incident AND the requesting resource is being demobilized, an OF-315 Incident Replacement Requisition is completed and signed by the SPUL. An "S" number will be assigned by the incident to be used by the home unit.

### NON CACHE ITEM CLAIMS

All non-cache items available through the cache (e.g. sleeping bags, tents, tools, sleeping pads) will be replaced with cache equivalent items. Replacement for normal wear and tear is through home unit project funds. Specialized equipment (non-cache and non-expendable) shall be documented on a resource order and must be appropriate to the incident position. For replacement with incident funds, the item must have been clearly damaged or destroyed on the incident.

The OF-289 will be used to request consideration for replacement or repair of these items. Once approved, the OF-289 will be used by the incident to issue an "S" number to be used by the home unit.

### CLAIMS PROCESSING

The incident agency will review all potential claims for accuracy and completeness and forward to the appropriate adjudicating official. This includes forwarding employee claims to the employee's home unit, if different than the incident agency.

## HUMAN RESOURCE MESSAGE

### ARE YOU READY?

The demands expected of the people assigned to incidents are complex, different, exhausting, and exciting. No matter what our particular assignment to the incident may be, there is a common expectation placed on each of us – our readiness to take on the assignment.

This readiness is what characterizes the high professionalism associated with the human resources on complex incidents. Readiness is what allows us to adjust to changing conditions and to insure the safety of personnel assigned to the incident.

In order to maintain this readiness throughout the incident, we need to continue to insure our focus is on the objectives. We must not be detracted by unacceptable conduct that adversely affects co-workers, cooperators and other personnel and their readiness.

*"We have to stick around—the fire guy's coming between twelve and two."*

Every morning in Africa, a gazelle wakes up. It knows it must run faster than the fastest lion or it will be killed. Every morning a lion wakes up. It knows it must run faster than the slowest gazelle or it will starve to death. So it doesn't matter whether you are a lion or a gazelle. When the sun comes up, you better be ready.

Jan Cawthon, Zone 1 Human Resources Specialist, 909-553-2829  
Janine Summy, Zone 2 Human Resource Specialist, 509-429-1206

## CODE OF CONDUCT INCIDENT PERSONNEL

Each individual on this incident is responsible for:

- Being *ready and able* to perform their assigned duties effectively
- Conducting themselves in a manner that treats people with dignity, equity, courtesy, and respect
- Abiding by agency ethics and conduct regulations
- Reporting any harassment or other inappropriate behavior

Each individual on this incident has the right to:

- Work in an environment characterized by safe work practices
- Work in a fair and harassment free environment
- Say "No" to unwelcome advances or requests for favors
- File complaints or grievances through appropriate avenues

There is zero tolerance for inappropriate behavior while assigned to the incident, including

- Illegal drug use
- Alcohol use
- Unsafe work practices and activities
- Discrimination
- Sexual harassment
- Fighting, threatening and abusive behaviors
- Using social media and electronic communication devices for personal business while engaged in fire assignment duties
- Other violations of USDA and Forest Service standards of conduct

Failure to adhere to the Code of Conduct could result in dismissal from the incident, with notification to your home unit.

The public expects our best efforts; they see us as professionals in what we say and do. Let's continue to show them we are!

# ATTENTION FEDERAL TRAINEE'S

**Are you going to be recommended for certification on this incident?**

**Or**

**Have you already been recommended for certification but still have your taskbook with you at this incident?**

Your FQRC needs your taskbook with all the proper documentation so they can review it and submit it to the certifying official.

**September 5** is the deadline for submitting applications to the R5 Fall Fire Hire

If you have worked hard all summer for an incident qualification that will get you to that next level, don't wait and miss your opportunity.

**Come by and see me and I will get your completed taskbook back to your FQRC.**

# Incident Trainee / Trainer Data Worksheet

## PLEASE PRINT LEGIBLY!

### A: Trainee Data

Trainee Name: \_\_\_\_\_ Check One: ☐ Male ☐ Female  
Trainee Position: \_\_\_\_\_ Order Number (E, O, C, A) \_\_\_\_--\_\_\_\_\_  
State Abr. \_\_\_\_ + 3 Letter Designator \_\_\_\_\_ Agency Type: ☐ Federal ☐ State ☐ Local  
☐ USFS ☐ BLM ☐ BIA ☐ FWS ☐ DOD ☐ NWS ☐ NPS Date Assigned: \_\_\_\_--\_\_\_\_--\_\_\_\_\_  
Ordered as a trainee for the incident? ☐ Yes ☐ No Trainee Cell Number: \_\_\_\_\_  
Ordered as a US Forest Service PRIORITY trainee ☐ Yes ☐ No ☐ FPM ☐ IFPM?

**Person's name and title that is responsible for tracking your qualifications:  
(Where do you want the packet mailed to?)**

Name: \_\_\_\_\_ Title: \_\_\_\_\_ Home Unit: \_\_\_\_\_  
Agency Address: \_\_\_\_\_ City: \_\_\_\_\_  
State: \_\_\_\_\_ Zip: \_\_\_\_\_ Phone Number: ( ) \_\_\_\_--\_\_\_\_

### B. Trainee Prerequisites
